The Club

Shorthorn steers are very popular with showmen throughout the country. They are quick-growing, easy-doing cattle that win their share of the major championships. Shown above is the grand champion steer over-all-breeds 1968 Oklahoma Junior Livestock show.

The West Central Illinois Shorthorn Ass'n will give a \$25 cash award to the exhibitor of any grand champion steer, junior show or 4-H show in any county or state fair if the steer was purchased in the Association's sale at Princeton. One award per steer. This award starts with the calves purchased in the 1968 sale, Sept. 5. If you purchase a steer calf and he wins a championship next summer or fall, contact an officer of the Ass'n for your award.

The steers from this sale have gone on to win many honors. Please note the special awards offered to exhibitors of steers purchased in this sale.

Unfortunately, in order to avoid conflicts with judging days at fairs in the area, other sales, etc., this sale is held on Thursday, in spite of the fact that more boys and girls could probably be in attendance on a Saturday. This means those who do make the effort to come will find more bargains in quality than is normal.

The club calf sale is scheduled last . . . it will start at approximately 3 p.m. In this way, juniors will be able to attend and miss only a minimum amount of time in school.

Calf Sale . . . starts at 3 p.m.

Note that his dam is by Naemoor Barbican, a great sire to have in your future pedigrees. His dam is a consistent producer of top cattle. Her first calf, a heifer, is in our herd and her third calf, a bull, is just one year younger than Adjuster and is also a standout in our show string.

Shorthorn bulls are noted as the great improvers of beef cattle. Their use will get you a calf that will wean 50 pounds heavier at weaning and the replacement heifers will develop into cows with more milk and be excellent mothers. The bulls selling in this sale are all old enough for immediate use and many will be backed by strong show records at this summer's fairs.

The Princeton Sale traditionally brings
potentially great animals through the ring.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
